

HOW DO YOU LOVE YOUR LIBRARY?

What people are saying about the Radnor Memorial Library...*

...the Jane Austen tea party was a memorable afternoon for its content and the generosity of the Library staff...Kristin

...Always a quiet place to visit, read and browse magazines and newspaper. Can always rely on receiving books that I ordered. Always enjoy the lectures, book club and activities that are always available...Calvin S.

...My green library book bag commuted with me to college when I was finishing my degree...wherever I go my green book bag lets people know I am a proud library patron. I would be lost without it.....Anne H.

...personnel are wonderful...I feel very warm and comfortable here! Just really enjoy the book club! Josephine S.

...I still have my first Radnor Library card and envelope....What I love about the Radnor Memorial Library is what I loved most about my childhood public library....I love to browse the books in the stacks. I love the frame of mind browsing puts me in...Once one begins browsing one does not know where one will end up. Where will the end point be? The journey through the mind, through the books is all I seek....Anne M.

It is a great place to access the web and meet friends....I also like to volunteer here from time to time. Matthew D.

...During my childhood...I enjoyed earning pastel-colored stickers for my summer reading sheet each time I completed a book...the program kept me reading after the school year and was just plain fun... Anne H.

Great environment. Friendly and helpful staff....Sandra J. (an adult user who comes from Center City Philadelphia who started using the Radnor library because of the mystery collection)

...I love the library programs they offer here. Everything from story times with live animals to author appearances....Anne E.

...I began using your library when I was a student at Villanova in the early 1980's. When I graduated and got a teaching job in a Catholic school, your

wonderful children's books filled my class libraries. (At that time, teachers could check out books for 6 weeks!) Shortly after, I married and settled in Upper Merion Township. Twenty-one years later, with a card that can be, and is, used in three counties, I am still trekking to the Radnor library on a weekly basis (often on Friday nights with my youngest who is 10). The Radnor library was "home away from home" when my children were toddlers (Miss Carlson still remembers them!) and to this day, remains so for me....Lisa G.
